TITLE: Phospholipid virucidal compositions

Brief Summary Text (6):

In accordance with the present invention there has now been discovered novel phospholipid agents which surprisingly exhibit both excellent broad spectrum antibacterial and antifungal activity suitable for use as preservative and/or disinfectant agents in a variety of personal care compositions, household cleaning formulations and the like. These agents have also been found to possess potent virucidal activity making them particularly useful as a disinfectant, and for immobilizing and/or killing a variety of infectious viruses. The novel antimicrobial agents of the invention, which also exhibit virucidal properties, comprise particular synthetic phospholipid compounds that may be represented by the following general formula: ##STR3## wherein: x=1 to 3 or mixtures thereof;

Detailed Description Text (136):

Product A--Cocamidopropyl PG--Dimonium Chloride Phosphate available commercially under the tradename PHOSPHOLIPID PTC from Mona Industries.
